" Please come and support us and help us keep up the good work! "

The driving principles of the "Unity Bridge Project" are "remembering those affected" and "gratitude for the support given." We are building a bridge of friendship between the givers and the receivers and aiming to make a bridge of hearts. We want to send a message to people in the affected areas, "We'll never forgotten you" Children from the disaster area are coming to participate in the concert to show their gratitude. The concert will be streamed live to the rest of the world.

音楽の力を信じて。『忘れない』と『ありがとう』を繋ぐ架け橋。
